 - i. Funding vote for 90 Military Rd. - \$375 for gutter installation to improve the drainage of water that runs off the roof. Currently water runs down two areas in the front and two areas in the back of the house, through very short spouts. This is a potential hazard in the colder months due to icing in the yard, which is like a wetland due to poor drainage. Extensions would be added to the four areas of concern in order to send the water away from the house.
